

Excel Task – Day 1

Formula List and Instructions

Task 1 : Employee Sheet – Basic Formatting

1. Department Field

=CHOOSE(RANDBETWEEN(1,5),\$H\$1,\$H\$2,\$H\$3,\$H\$4,\$H\$5)

2. Salary Field

=RANDBETWEEN(30,90)*1000

3. Joining Date Field

=RANDBETWEEN(DATE(2021,01,01),DATE(2026,06,30))

--> In salary field we use "currency (₹)" type

--> In joining date field, we use "date" type

Task 2 : Sales Report – Beautification

1. Region Field

=CHOOSE(RANDBETWEEN(1,4),\$H\$1,\$H\$2,\$H\$3,\$H\$4)

2. Sales Amount

=RANDBETWEEN(40,100)*1000

--> In salary field we use "currency (₹)" type

Task 3 : Student Marks Sheet – Formatting

1. Each and Every Subject Field

=RANDBETWEEN(0,100)

2. Percentage Field

Excel Task – Day 1

=AVERAGE(I6:M6)/100 (after this apply "percentage" format style)

--> We use conditional formatting for percentage

81 - 100 green color

61-80 yellow color

40-60 light orange

<40 red

Task 4 : Sales Summary – Aggregation Functions

1. Date Field

=RANDBETWEEN(DATE(2021,01,01),DATE(2026,06,30))

2. Total Sales

=SUM(G4:G23)

3. Average Sales

=AVERAGE(G4:G23)

--> Apply top 1 conditional formatting for identifying highest sales

--> Apply below top 1 conditional formatting for identifying lowest sales

Task 5 : Department-wise Salary Analysis

1. Department Field

=CHOOSE(RANDBETWEEN(1,5),\$H\$1,\$H\$2,\$H\$3,\$H\$4,\$H\$5)

2. Total Salary Per Department

=SUMIF(F5:F22,F9,G5:G22)

3. Average Salary

=AVERAGE(G5:G22)

Excel Task – Day 1

4. Total Employee

=COUNT(G5:G22)

5. Total Employee Per Department

=COUNTIF(F5:F22,"HR")

Task 6 : Attendance Sheet – COUNTIF

1. Attendance Field

=CHOOSE(RANDBETWEEN(1,2),"P","A")

2. Count Present Days

=COUNTIF(E4:I4,"P")

3. Count Absent Days

=COUNTIF(E5:I5,"A")

Task 7 : Sales Count Logic

1. Count Sales Above 10K

=COUNTIF(F4:F23,">10000")

2. Count Sales Below 5K

=COUNTIF(F4:F23,"<5000")

Task 8 : Conditional Formatting – Sales

1. Sales Amount

=RANDBETWEEN(20,100)*100

--> Apply Conditional formatting and fill cell style to green where sales > 50000

--> Apply Conditional formatting and fill cell style to red where sales < 40000

Excel Task – Day 1

Task 9 : Student Result Highlight

--> Apply Conditional formatting and fill cell style to green where percentage ≥ 75

--> Apply Conditional formatting and fill cell style to red where sales < 40

Task 10 : Salary Band – Conditional Formatting

1. Salary Field

=**RANDBETWEEN**(10,120)*1000

--> Apply Conditional formatting and fill cell style to green where salary $\geq 50K$

--> Apply Conditional formatting and fill cell style to yellow where salary between 30k and 49.9K

--> Apply Conditional formatting and fill cell style to red where sales < 30
